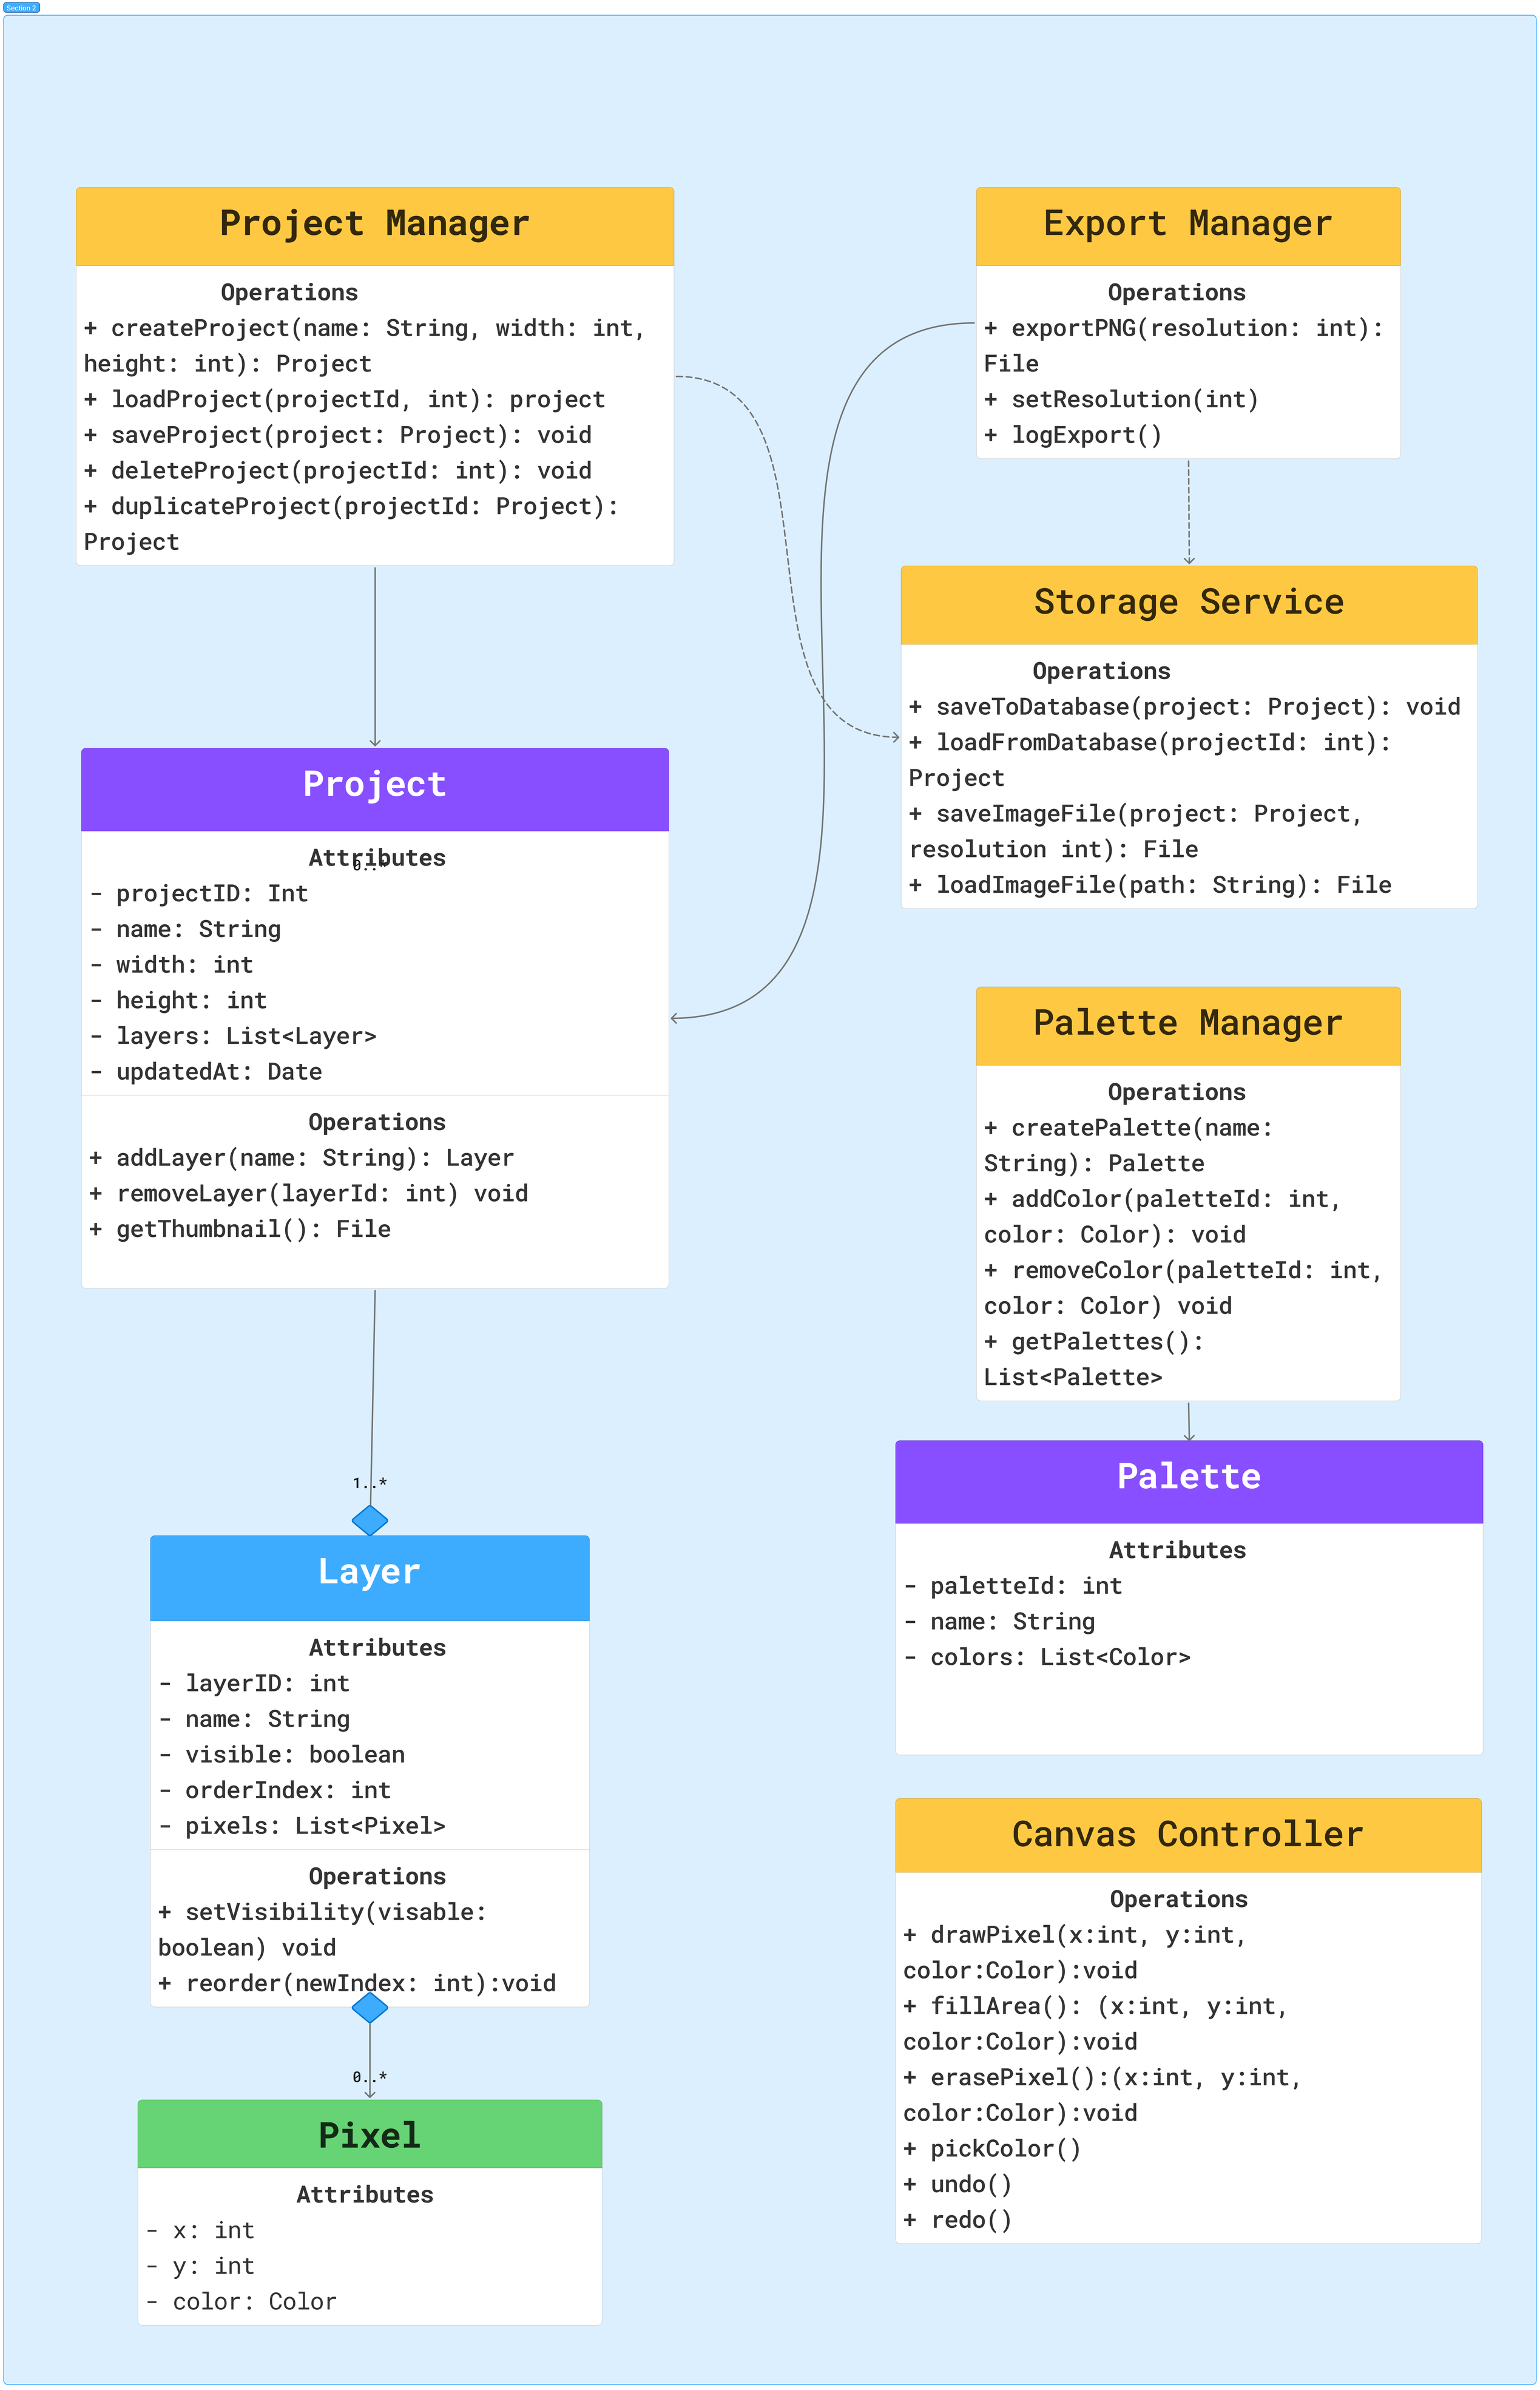
Section 2



Project Manager
Operations
+ createProject(name: String, width: int, height: int): Project
+ loadProject(projectId, int): project
+ saveProject(project: Project): void
+ deleteProject(projectId: int): void
+ duplicateProject(projectId: Project): Project
Export Manager
Operations
+ exportPNG(resolution: int): File
+ setResolution(int)
+ logExport()
Storage Service
Operations
+ saveToDatabase(project: Project): void
+ loadFromDatabase(projectId: int): Project
+ saveImageFile(project: Project, resolution int): File
+ loadImageFile(path: String): File
Project
Attributes
- projectID: Int
- name: String
- width: int
- height: int
- layers: List<Layer>
- updatedAt: Date
Operations
+ addLayer(name: String): Layer
+ removeLayer(layerId: int) void
+ getThumbnail(): File
Palette Manager
Operations
+ createPalette(name: String): Palette
+ addColor(paletteId: int, color: Color): void
+ removeColor(paletteId: int, color: Color) void
+ getPalettes(): List<Palette>
1..*
Palette
Attributes
- paletteId: int
- name: String
- colors: List<Color>
Layer
Attributes
- layerID: int
- name: String
- visible: boolean
- orderIndex: int
- pixels: List<Pixel>
Operations
+ setVisibility(visable: boolean) void
+ reorder(newIndex: int):void
Canvas Controller
Operations
+ drawPixel(x:int, y:int, color:Color):void
+ fillArea(): (x:int, y:int, color:Color):void
+ erasePixel():(x:int, y:int, color:Color):void
+ pickColor()
+ undo()
+ redo()
0..*
Pixel
Attributes
- x: int
- y: int
- color: Color
